**Notice of Decision to Certify Emission Reduction Credits
May 3, 2024**

Pursuant to the requirements of California Health and Safety Code Section 40713 and District Rule 26.7.B.4, all interested persons are notified of the Air Pollution Control Officer's (APCO) decision to certify an Emission Reduction Credit (ERC) for the following applicant. The proposed ERC is in units of tons per year.

The public may submit written comments on the preliminary decision during the 30-day period following the date of publication of this notice. The public is welcome to inspect, at the District office, the information submitted by the applicants and the supporting analyses for the preliminary decisions. After reviewing all comments received, the APCO shall provide written notification of the final decision to grant or deny any ERC to any person or agency submitting comments on the proposed ERC during the comment period.

If you have any questions regarding this notice, please contact John Harader at 805/303-3682 or johnh@vcapcd.org.

ERC Certificate No. 1252

Company	ROC	NOx	PM-10	SOx
Chevron U.S.A. Inc. 3916 State Street, Suite 200 Santa Barbara, CA Application No. 01494-631	0.89	3.08	0.44	0.05

The emission reductions result from the shutdown of three Allison 4800 BHP / 4.0 MW Turbine Generators (G-1, G-2, G-3) that provided electrical power on OCS (Outer Continental Shelf) Oil Platform Gail.
