

**GASOLINE DISPENSING FACILITY**

*Please review APCD Rule 70, "Storage and Transfer of Gasoline". Compliance with Rule 70 must be demonstrated for the gasoline dispensing facility. Contact the District if you have any questions on APCD Rule 70 or the California Air Resources board (CARB) Executive Orders for certified gasoline vapor recovery systems. CARB Executive Orders are available at www.arb.ca.gov/vapor/vapor.htm. The application must also include a diagram of the vapor recovery piping from the dispensers to the tanks and vents.*

**Facility Information**

Facility Type	<input type="checkbox"/> Retail <input type="checkbox"/> Non-Retail
Number of Dispensers and Nozzles (Gasoline Only)	_____ Dispensers _____ Nozzles
Actual Gasoline Throughput Last Year (If applicable)	_____ Gallons
Expected Throughput Next Year	_____ Gallons

*Information on Tanks – Information is required only for gasoline or methanol/gasoline tanks. Permits and the information below are not required for diesel fuel or waste oil tanks.*

**Information on First Tank**

Capacity of Tank	_____ Gallons
Fillpipe Distance Must be less than 6 inches	_____ Inches
Type of Tank	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
Status of Tank	<input type="checkbox"/> New <input type="checkbox"/> Existing

**Information on Second Tank**

Capacity of Tank	_____ Gallons
Fillpipe Distance Must be less than 6 inches	_____ Inches
Type of Tank	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
Status of Tank	<input type="checkbox"/> New <input type="checkbox"/> Existing

**Information on Third Tank**

Capacity of Tank	_____ Gallons
Fillpipe Distance Must be less than 6 inches	_____ Inches
Type of Tank	<input type="checkbox"/> Aboveground <input type="checkbox"/> Underground
Status of Tank	<input type="checkbox"/> New <input type="checkbox"/> Existing

*For more than 3 tanks, use additional forms*

## **GASOLINE DISPENSING FACILITY**

### *Information on Phase I Control System*

Piping Design (check one)	<input type="checkbox"/> Two Point (G-70-97 or G-70-102) Equipped with CARB Certified Enhanced Vapor Recovery (EVR)? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Coaxial (Coaxial installations prohibited unless CARB certified after 1/1/94, Rule 70.B.4) <input type="checkbox"/> Teed (G-70-9) <input type="checkbox"/> Submerged Fill Pipe Only
------------------------------	--

### *Information on Phase II Control System*

Underground Tanks (check one)	<input type="checkbox"/> No Phase II System <input type="checkbox"/> Balance System (Various Executive Orders) <input type="checkbox"/> Dresser/Wayne WayneVac (G-70-153) <input type="checkbox"/> Healy Mdl 8500/9000 (G-70-70) <input type="checkbox"/> Marconi VaporVac (G-70-150) <input type="checkbox"/> Healy/Franklin (G-70-183) <input type="checkbox"/> Marconi VaporVac w/Catlow Nozzle (G-70-188) <input type="checkbox"/> Hirt VCS-200 (G-70-33) <input type="checkbox"/> Hasstech Model VCP-2 or VCP-2A (G-70-7) <input type="checkbox"/> OPW VaporEZ (G-70-163) <input type="checkbox"/> Hasstech Model VCP-3A (G-70-164) <input type="checkbox"/> Red Jacket Asp Assist (G-70-14) <input type="checkbox"/> Healy Model 100 (G-70-70) <input type="checkbox"/> Tokheim MaxVac (G-70-154) <input type="checkbox"/> Other (Specify Name and Executive Order) _____
