

**VENTURA COUNTY AIR POLLUTION CONTROL DISTRICT  
RULE DEVELOPMENT CALENDAR  
JANUARY 2024 THROUGH DECEMBER 2024**

| <b>Rule Number:</b> | <b>Title:</b>   | <b>Tentative Adoption</b> | <b>Reason:</b>  | <b>Affected Source Type:</b>   |
|---------------------|---|---------------------------|---|--|
| 2                   | Definitions   | TBD                       | In support of other rules   | All other rules  |
| 42                  | Permit Fees   | 2 <sup>nd</sup> Qtr 2026  | Fiscal issues   | All permitted sources  |
| 74.32               | Organic Material Conversion Operations                      | TBD                       | CCAA – All feasible measures<br>AQMP Control Measure R-607                              | Composting operations, chip-and-grind operations and anaerobic digestion                                     |
| 74.9                | Stationary Internal Combustion Engines                      | 2024                      | CCAA – All feasible measures  | Stationary internal combustion engines   |
| 15.2                | District Indemnification                                    | TBD                       | Update rule language, clarify intent  | Permitted sources  |
| 23                  | Exemptions from Permit                                      | TBD                       | Changes to EPA Regulations of Greenhouse Gases;<br>Update rule language, clarify intent | Operations using exempt compounds, composting and waste conversion operations and other operations as needed |
| 26                  | New Source Review   | TBD                       | Update rule language, clarify intent  | New and modified facilities  |
| 26.1                | New Source Review - Definitions                             | TBD                       | If needed for other rule amendments   | New and modified facilities  |
| 26.4.1              | Emission Banking for Agricultural Pump Engines              | TBD                       | Update rule language, clarify intent and address industry concerns                      | Operators of agricultural engines  |
| 26.9                | New Source Review – Power Plants                            | TBD                       | Clarify Preliminary and Final Determinations of Compliance                              | New power plants   |
| 26.13               | New Source Review – Prevention of Significant Deterioration | TBD                       | Expected changes in GHG requirements  | New major sources and major modifications  |
| 32                  | Breakdown Conditions; Emergency Variances                   | TBD                       | Update rule language, clarify intent  | Electric public utilities  |
| 33 Series           | Part 70 Permits   | TBD                       | Changes to EPA Regulations of Greenhouse Gases  | Stationary sources of any regulated air pollutant  |
| 35                  | Elective Emission Limits                                    | TBD                       | Changes to EPA Regulations of Greenhouse Gases  | Stationary sources of any regulated air pollutant  |
| 41                  | Hearing Board Fees  | TBD                       | Update Fees   | Hearing Board petitioners  |
| 44                  | Exemption Evaluation Fees                                   | TBD                       | Update rule language, clarify intent  | Applicants for exemptions  |
| 47                  | Source Test, Emission Monitor, and Call-Back Fees           | TBD                       | Update Fees   | Sources requiring source tests or emission monitor inspections   |
| 48                  | Agricultural Engine Registration Fees                       | TBD                       | Update Fees   | Stationary agricultural engines  |
| 49                  | Process Rate Information Submittal Fees                     | TBD                       | Fiscal issues   | Sources required to report pursuant to Rule 24   |
| 70                  | Storage and Transfer of Gasoline                            | TBD                       | CCAA – All feasible measures; EPA RACT recommendation                                   | Gas stations and gasoline bulk storage facilities  |

| <b>Rule Number:</b> | <b>Title:</b>   | <b>Tentative Adoption</b> | <b>Reason:</b>  | <b>Affected Source Type:</b>  |
|---------------------|---|---------------------------|---|---|
| 71                  | Crude Oil and Reactive Organic Compound Liquids                     | 2023                      | Update rule language, clarify intent, meet requirements of EPA CTG and reasonably available control technology (RACT) | Equipment used in production, gathering, separation and processing of crude oil and natural gas, and the storage and transfer of petroleum material and ROC liquids |
| 71.1                | Crude Oil Production and Separation                                 | TBD                       | Update rule language, clarify intent, meet requirements of EPA CTG and RACT   | Oil and gas wells and produced fluids processing equipment  |
| 71.2                | Storage of Reactive Organic Compound Liquids                        | 2024                      | Meet requirements of EPA CTG and RACT   | Equipment used to store crude oil or reactive organic compound (ROC) liquids  |
| 71.3                | Transfer of Reactive Organic Compound Liquids                       | 1 <sup>st</sup> Qtr 2024  | Address new EPA requirements  | Equipment used to transfer crude oil or reactive organic compound (ROC) liquids   |
| 74.5.1              | Petroleum Solvent Dry Cleaning                                      | TBD                       | Rynex glycol ether, new types of machines   | Petroleum solvent dry cleaners  |
| 74.5.2              | Synthetic Solvent Dry Cleaning                                      | TBD                       | New types of solvents   | Synthetic solvent dry cleaners  |
| 74.12               | Surface Coating of Metal Parts and Products                         | TBD                       | Update rule language, clarify intent  | Metal parts coating operations  |
| 74.13               | Aerospace Assembly and Component Manufacturing Operations           | TBD                       | Update rule language, clarify intent  | Aerospace manufacturing operations  |
| 74.14               | Polyester Resin Operations  | TBD                       | CCAA – All feasible measures  | Polyester resin operations  |
| 74.15               | Boilers, Steam Generators and Process Heaters (5MMBTUs and greater) | 2024                      | Update rule language, clarify intent, update SSM provisions to meet new EPA guidance                                  | Any facility with large boilers, steam generators or process heaters  |
| 74.17.1             | Municipal Solid Waste Landfills                                     | TBD                       | Changes to EPA Regulation of Landfills  | Recordkeeping, monitoring, and flares   |
| 74.18               | Motor Vehicle Coating Operations                                    | TBD                       | Update rule language, clarify intent  | Mobile touch-up operations  |
| 74.19.1             | Screen Printing Operations  | TBD                       | CCAA – All feasible measures  | Screen printing operations  |
| 74.21               | Semiconductor Manufacturing   | TBD                       | CCAA – All feasible measures, update rule language, clarify intent  | Semiconductor manufacturing operations  |
| 74.22               | Natural Gas-fired Fan-type Central Furnaces                         | TBD                       | CCAA – All feasible measures<br>AQMP Control Measure N-110-2016   | Natural gas-fired, fan-type central furnaces  |
| 74.23               | Stationary Gas Turbines   | TBD                       | Update SSM requirements to meet EPA guidance  | Stationary gas turbines   |
| 74.24               | Marine Coating Operations   | TBD                       | Update rule language, clarify intent  | Marine coatings excluding pleasure craft coating and commercial boatyard operations   |

| <b>Rule Number:</b> | <b>Title:</b>   | <b>Tentative Adoption</b> | <b>Reason:</b>  | <b>Affected Source Type:</b>   |
|---------------------|---|---------------------------|---|--|
| 74.27               | Gasoline and ROC Liquid Storage Tank Degassing Operations | TBD                       | CCAA – All feasible measures  | Gasoline and ROC liquid storage tank degassing operations                      |
| 74.30               | Wood Products Coating                                     | TBD                       | CCAA – All feasible measures  | Wood coating operations  |
| 76                  | Federally Enforceable Limits on Potential to Emit         | TBD                       | Changes to EPA Regulations of Greenhouse Gases                      | Stationary sources of any regulated air pollutant                              |
| 101                 | Sampling and Testing Facilities                           | TBD                       | Update rule language, clarify intent                                | Stationary sources of any regulated air pollutant                              |
| 102                 | Source Tests  | TBD                       | Update rule language, clarify intent                                | Stationary sources of any regulated air pollutant                              |
| 103                 | Continuous Monitoring Systems                             | TBD                       | Update rule language, clarify intent                                | Stationary sources of any regulated air pollutant                              |
| 211                 | Transportation Outreach Program                           | TBD                       | Align rule requirements with current practice in agreement with EPA | Employers with 100 or more employees reporting to a worksite in Ventura County |
| Reg. V              | Orchard Heaters   | TBD                       | Update rule language, clarify intent                                | Operators of orchard heaters   |
| TBD                 | Oil Well Degassing  | TBD                       | ROC reductions  | Oil wells  |
| TBD                 | Non-traditional Emission Reduction Credits                | TBD                       | Banking of ERCs from non-permitted sources                          | Sources requiring emissions mitigation   |
| TBD                 | Registration of Plating Operations                        | TBD                       | Compliance with NESHAP  | Plating operations   |
| TBD                 | Vacuum Truck Operations                                   | TBD                       | CCAA – All feasible measures  | Vacuum truck operations  |
| TBD                 | SIP Credit for Mobile Agricultural Engines                | TBD                       | NOx reductions from mobile agricultural engines                     | Mobile agricultural engines  |
| TBD                 | Wastewater Treatment Plants                               | TBD                       | ROC reductions AQMP Further Study Control Measure                   | Steam stripping at wastewater treatment plants                                 |
| TBD                 | Surface Coating of Plastic Parts and Products             | TBD                       | RACT and EPA CTG  | Plastic parts coating operations   |

AQMP: Air Quality Management Plan  
 CCAA: California Clean Air Act - All feasible measures (rule amendments contingent upon local feasibility)  
 CTG: Control Techniques Guidelines  
 EPA: United States Environmental Protection Agency  
 ERC: Emission Reduction Credit  
 GHG: Greenhouse Gas  
 NESHAP: National Emission Standards for Hazardous Air Pollutants  
 NOx: Oxides of Nitrogen  
 RACT: Reasonably Available Control Technology  
 ROC: Reactive Organic Compounds  
 SIP: State Implementation Plan  
 SSM: Startup, Shutdown, Malfunction  
 TBD: To Be Determined
