D. Public Petitions to EPA

If the EPA does not object in writing to the issuance of a Part 70 permit pursuant to Rule 33.5.E, any person may petition the EPA within 60 days after the expiration of EPA's 45 day comment period.

Such petition shall be based only on issues relating to the Part 70 permit that were raised during the public comment period specified pursuant to Rule 33.7.B.2.e, unless:

1. The petitioner demonstrates that it was impracticable to raise such issues during such public comment period, or

2. Grounds for such petition arose after the end of such public period.

If the EPA objects to the Part 70 permit as a result of a petition filed pursuant to this section, the District shall not issue the permit, until EPA's objection has been resolved. Notwithstanding the previous sentence, a petition does not stay the effectiveness of a Part 70 permit if the permit was issued after the end of the 45 day EPA comment period and prior to an EPA objection.
